CLUE 2

Fold your *Memories & More Notecard* (or Basic White piece 6½" x 4¼", scored at 3¼") in half. Burnish the fold with your bone folder to create a nice crisp crease.

CLUE 3

Adhere the 4" x 3" card stock piece to the front of the folded notecard, centring it neatly.

CLUE #4

Layer the Designer Series Paper – Pattern 2 (2 $\frac{3}{4}$ " x 3 $\frac{3}{4}$ ") onto the centre of the card stock from the previous step.

CLUE #5

Position one piece of Card stock Colour #2 (5⁵/₈" x 3⁷/₈") onto the centre front of the large Card stock Colour #1 (5³/₄" x 4") panel and secure it in place. Then mount the second piece of Card stock Colour #2 to the centre back of these layers.

CLUE #6

Attach the large patterned paper piece (Pattern 2) to the centre front of the card.

CLUE #7

Fold the 8” ribbon in half and anchor it to the notecard so the folded edge of the ribbon sits flush with the fold of the notecard.

Fasten the notecard to the centre front of the base card, making sure you’ll still be able to tie the ribbon into a bow.

CLUE #8

Time for stamping! Stamp your chosen image onto a Basic White scrap and colour it if desired. If you plan to die cut, punch, or fussy cut the image, now is the time to do it.

CLUE #9

Stamp your sentiment onto another scrap of card stock and trim it out using your favourite method.

Elevate your design by adding the stamped image and sentiment to the front of the notecard using Dimensionals (foam adhesive).

CLUE #10

More stamping fun! On your 3¾" x 5½" Basic White piece, stamp a sentiment, image, or decorative border and colour if desired. Fix this panel to the centre back of the base card, layering it over Card stock Colour #2.

CLUE #11

Bling it up! Add embellishments, Wink of Stella, or other sparkly touches to finish your card.

TIP: When using embellishments, try working in odd numbers (3, 5, 7). Odd groupings are usually more pleasing to the eye and create a balanced design.
